LAWLESSNESS EXISTS.

Homestead Fight Repeated at McKeesport, Pa.

THE STRIKERS IN CONTROL.

A Number of People Badly Beaten, but No Arrests Are Made—Serious Trouble Existing in Illinois—Peace Prevails at Cripple Creek—Latest Reports From the Scenes of the Mining Disturbance.

McKEESPORT, Pa., June 6.—Never has this city witnessed such scenes of defiance of law, and the inability of the authorities to cope with the lawbreakers to the extent of repressing lawlessness, as is now existing here. The strikers are practically in command of the situation. The trouble grows out of the strike at the tube works and the strikers have outwitted the police, broken into the millyards and are making systematic tours of the works and their surroundings.

The plant resumed in two departments yesterday, and about 25 men went to work. The news quickly spread, and by noon a mob of nearly 1,000 had assembled about the gates awaiting the appearance of the workmen. Most of the men remained inside. But a few attempted to go to their homes and were caught by the mob and terribly beaten. They were finally rescued, however, by the police and taken back into the enclosure.

The mob then dispersed in part, but toward evening reassembled, and by 6 o'clock probably 5,000 men were massed in front of the entrance on Fourth avenue, and it was said that fully three-fourths of the number were foreigners. They were disappointed. At 6 o'clock the day turn did not come out and the night turn did not go in. There was a great load of provisions taken into the mill by the company, and a lone Slav workman came out the back way and tried to make a sneak to escape. He was seen, and a section of the surging mob broke off the main body and fell upon his trail with yells that must have given him speed if it was in him.

The race covered several squares before he turned at bay. He was unable to run any further; he fully expected to be killed, and he drew a knife and faced the yelling pursuit, evidently determined to die fighting. The foremost pursuers paused a moment, but the rush came up behind them and a dozen men with clubs sprang upon the panting fugitive. He was down in an instant, but Officer Singer was close on the heels of the leaders of the race and he jumped into the middle of the melee, with the fearful odds against him, without a moment's hesitation. The officer and the fugitive were badly beaten, but help came and they were rescued.

At the mills the mob surged around the entrances until 7 o'clock, when a rush was made and they broke into the yards. The men inside were panic-stricken, and it was the rule of every man for himself. The mob swarmed into the enclosure, looking for the hated nonunionists. Hundreds of them were equipped with clubs or weapons of some description. Then began a wild chase and pursuit of the hunted workmen inside. Several welders took to the river and made their escape to Millville township, pursued by crowds of strikers, and finally chased off into the darkness toward Duquesne.

The strikers were in complete possession of the place. They ranged over the grounds, and finally routed out 10 hidden workmen. The poor fellows made a dash for freedom, but were cut off and surrounded. With no compunctions about 10 men armed with clubs attacking one defenseless man, the mob set upon these men in swarms and beat them shockingly. In the crush to get at the prostrate men one fellow was badly stabbed.

It was the Homestead fight over again with variations. One man was found during the evening still in hiding in the millyard, which the strikers were patrolling in complete mastery of the works. The fellow made a dash for the street and got outside the yards. He was pushed close by the pursuit, and in desperation sprang into an electric car passing on the street. The strikers surrounded the car, and the motorman tried to force it through the crowd. The trolley pole was pulled down and the car stalled. Then the fugitive was dragged off the car and beaten and kicked into insensibility.

Another stowaway was found, his clothing stripped off, and he was kicked and beaten until he was unconscious. Then the assailants left him for a time, and he managed to crawl into a store on Fifth avenue. He was unable to help himself and is still there, where he sought refuge.

So far as the authorities are able to learn, nobody has been killed outright, but the injuries of some of the victims of the mob's fury will probably die.

Up to this hour the strikers have refrained from destroying the machinery in the mills.

TROUBLE IN ILLINOIS.

The Strikers Growing Bolder and More Threatening Every Hour.

MARION, Ills., June 6.—There is any amount of trouble in sight at the Carterville mines. The strikers are growing bolder and more threatening every hour. The northbound freight train on the Short Line, which was carrying eight cars of Ohio river coal from Brooklyn to St. Louis, was fired into by the mob of strikers.

The sheriff wired the governor again, making an earnest appeal for troops. Governor Altgeld finally yielded and ordered Colonel Smith of the Fourth regiment to proceed to Carterville at once with three companies.

During the afternoon the governor, in

a very caustic letter to the sheriff, intimating that he had not done all he could, intimating that he was trying to shift the responsibility onto the state, and saying if he could not perform his duties he would better resign. The sheriff returned a reply very warm, telling the governor that he was responsible for most of the trouble in the state, and that if he would resign or go away and let the lieutenant governor run things, peace would be established very shortly.

INTERFERING WITH THE COURT. Witnesses in a Labor Case Captured and Held by the Strikers.

UNIONTOWN, Pa., June 6.—The strikers charged with the murder of J. H. Paddock, chief engineer of the Frick coke works, are now occupying the attention of the court and are likely to hold it some time, since they were yesterday granted separate trials and there are 30 of them to be tried.

A sensation was caused by the announcement that strikers last night surrounded 10 witnesses in the case as the Baltimore and O no train pulled in the station and took them to camp at the Kyle plant, where they are said to be held prisoners.

COLUMBUS CONFERENCE.

Nothing Yet Done Which Is Hopeful For a Settlement.

COLUMBUS, O., June 6.—Substantially all of the officers and district presidents of the United Mine Workers of America met at the Grand Central hotel. They opened with an executive session.

An effort is being made by outsiders, it is understood, to have these officers declare in favor of a resumption of work at all mines in Ohio, Western Pennsylvania, Indiana, Central Illinois and certain other contiguous territory, provided operators in such territory, or some of them, consent to pay the price that is asked for mining.

Although it has been said by some that the calling of district conferences virtually means the giving up of the national plan, the miners' officers deny this vigorously and say the original plan will not be given up.

A BRIGHT LIGHT IN THE NIGHT.

Wonderful Things Done at Sandy Hook With the Big Searcher.

SANDY HOOK, N. J., June 6.—The great electric light that was recently erected here was operated for the first time in the east. The light was exhibited in the world's fair, Chicago. So intense and far-reaching were the rays that places far down the Jersey coast, in Staten Island and Coney Island, were plainly visible. Vessels at anchor in the bay showed up almost as plainly as in daylight. The weather was not suitable for the perfect working of the light, but even with this condition against it, the rays must have been visible for a great distance. It is claimed that the light can be thrown without difficulty as far as Philadelphia.

Left His Hand.

WINCHESTER, Ky., June 6.—A bold attempt at murder and robbery was made near Hayden's Corner, 10 miles south of here, Sunday morning. Stephen Holliday, a wealthy and eccentric old bachelor who lives alone in an isolated house several miles from the little village named, was aroused about 3 o'clock in the morning by an attempt to force his front door. Mr. Holliday seized a double-barreled shotgun and fired the full charge at the door, where a hand was protruding. Two or three pistol shots were fired in return, and the party fled. Examination showed blood and particles of flesh spattered upon the door-jamb, and upon the floor were scattered bones and pieces of flesh of the wrist and a hand of a colored man.

Banks Not Affected.

ST. JOSEPH, Mo., June 6.—The run which was started on the First National and Central Savings banks Monday had no effect on business yesterday. S. A. Walker has resigned as cashier of the first named bank and J. W. McAlister elected. Both banks have plenty of money, and no further trouble will follow. The failure of Steele & Walker has carried with it the Midland Coffee company, and will probably cause the suspension of several retail stores in Kansas and Nebraska, which the firm was carrying.

Frazer River Still Rising.

VANCOUVER, B. C., June 6.—The Frazer river is still rising, and is now at this point one and a half inches higher than the great flood of 1882. Reports from all points along the river tell of a uniform fall of wreck and disaster. The government wharf at Westham Island has collapsed. The water came over the dyke of the British Columbia Dredging company at Pitt Meadows and flooded over 2,000 acres, which cost over \$50,000 to reclaim.

Only Nine Men Working.

TRINIDAD, Colo., June 6.—There are but nine men working at the Hastings mine and none at Road Canon. Yesterday 1,275 striking miners, led by the Fremont county band, arrived here, and camped just outside the city limits. They will stay here until Thursday, when they will march to one of the other mines and request the men to come out.

Horse Stealing Charged.

HAMILTON, O., June 6.—W. L. Petree, a young lawyer of this city, son of a prominent and wealthy farmer, living near Woods station, Butler county, was arrested here on the charge of stealing a horse and roadcart from a Woods station farmer. Petree is well connected.

Renominated For Governor.

LEWIS, Mo., June 6.—The Republican state convention was held in this city yesterday and Henry B. Cleaves was renominated for governor. There were over 1,100 delegates present.

THE COFFINS TAKEN TO PRISON.

"Bending to the Storm, but It Shall Not Break Us." INDIANAPOLIS, June 6.—Francis B. Coffin and Percival A. Coffin, who were sentenced to 10 and 15 years respectively in the northern penitentiary for defrauding the Indianapolis National bank, left for the prison at 11:50 a. m., in charge of deputy United States marshals.

It was the intention of the court to sentence ex-President Theodore P. Hanghey of the Indianapolis National bank, who pleaded guilty several weeks ago, but on the request of Hanghey that he be taken to prison by United States Marshal Hawkins in person, District Attorney Burke and Judge Baker postponed his sentencing until Thursday, at which time he will be taken north.

Rev. C. A. Carstensen, rector of St. Paul's cathedral, of which the Coffins were prominent members, called on them at the jail and offered to accompany them to Michigan City, which offer was accepted. The preacher came out of the cell with tears in his eyes. "It's too bad," he said, "but they bear up bravely under the awful strain."

F. A. Coffin said to a reporter: "Why need you say anything about us? The public is not interested in our movements. What does it matter to anybody but our friends how we passed the night? I slept well. I suppose that I shall sleep well wherever I am. I feel that the storm is on me and I am bending to it. I don't intend to let it break me. I am waiting until it passes, and it will pass."

ATTEMPTED WHITE CAPISM.

An Outrage Narrowly Averted but More Trouble Is Feared.

LOGANSPORT, Ind., June 6.—Royal Center had a rousing sensation when an attempt was made to White Cap D. John J. Barton, editor of the Royal Center Record. Barton narrowly escaped, and fled an attempt charging George Conn, the town marshal, with being the ringleader in the affair.

Some time ago Editor Barton, who has long been one of the prohibition leaders in the town, was arrested by the marshal and compelled to pay a heavy fine. The charge was intoxication. This opened hostilities and Barton retaliated with a scathing arraignment of Conn and his friends, which brought about this last sensation. The feeling on both sides is intense and further serious trouble is feared.

Will Make It Interesting.

INDIANAPOLIS, June 6.—Governor Matthews anticipates a speedy settlement of the miners' difficulty in Sullivan county. He said last night: "It is our purpose to arrest and prosecute every man who is leading in the strike and make it as interesting for him as possible. These men must cease their unlawful acts. If necessary every miner in Sullivan county will be arrested. If the sheriff's deputies will not perform their duties, I will declare martial law."

Tunnel Under the Channel.

PARIS, June 6.—The chamber of deputies recently received a petition urging the reconsideration of the project to connect England and France by a tunnel or some other means. The petition was referred to the petitions committee. Francois De Loucie, in behalf of the committee, reported that it was expedient to resume diplomatic negotiations with Great Britain concerning the construction of a tunnel.

Millionaire Swindler.

BUENOS AYRES, June 6.—The shortage of the deposited manager of the Banco Provincial Mariano Marengo, it is now charged, will exceed \$200,000,000 in currency. Marengo has disappeared, and there are rumors that he has committed suicide, but these reports are unconfirmed. Marengo is generally regarded here as the victim of men in high official position.

Explosion of Gasoline.

PORTLAND, Or., June 6.—An explosion of gasoline yesterday, at the Troy steam laundry resulted in five Chinese being burned to death, and four others seriously injured, one probably fatally. J. B. Henderson, one of the proprietors of the laundry, was badly burned, the building and contents burned. Loss, \$100,000; partly insured.

A Mayor Falls.

SOUTH END, O. T., June 6.—James O. Fuqua, mayor of this city, has failed, attachments aggregating \$8,000 having been served upon him. His failure has caused the Farmers' and Merchants' bank, of which he was president, to temporarily close its doors. It is said that all liabilities will be met.

Narrow Escape From Cremation.

MUNCIE, Ind., June 6.—The cozy home of William Farr was burned early yesterday morning. The family escaped with their lives in their night clothes through a window. In rescuing his two small children from the bed that was already on fire, Farr was badly burned.

Communication Restored.

PORTLAND, Or., June 6.—The Western Union Telegraph company has succeeded in restoring communication with Tacoma and Spokane. The river now stands at 31 feet and seven-tenths above low watermark.

Bishops vs. Horse Racing.

LONDON, June 6.—Seven English bishops have addressed a letter to the anti-gambling association congratulating that organization on its success in obtaining prosecutions against race track gamblers.

McCreary.

NICHOLASVILLE, Ky., June 6.—At the Democratic district convention held here Tuesday, Hon. James B. McCreary was nominated for re-election to congress without opposition.

THE BISHOP AS A BOSS.

A Baltimore Methodist Minister Discusses the Subject.

BALTIMORE, June 6.—"Bishops must not be bosses," was the way the Rev. T. Dr. Henry R. Naylor paid his respects to Bishop Charles H. Fowler in his address in the Methodist ministers' meeting on the subject of limiting the power of Methodist bishops.

The story of Dr. Naylor's removal from his former position as presiding elder of the Washington district to the South Baltimore Methodist church, of which he is now pastor, is well known. The removal was made by Bishop Fowler in the annual meeting of the Baltimore conference in Frederick in March.

Dr. Naylor had not served as presiding elder in Washington the full time allowed presiding elders, and he did not want to be transferred. He was unusually popular with the churches, and a majority of them openly rebelled against the action of the bishop in sending Dr. Naylor to Baltimore, and passed resolutions requesting that such action be reconsidered. The bishop did not comply. Dr. Naylor said that a bishop had removed a preacher from one appointment to another with the avowed intention of crushing him. Before the year was out the preacher had died of a broken heart, leaving a widow and orphans. Dr. Naylor said the system crushed manhood, made widows and orphans, created sycophants and muzzled the religious press.

"The idea is," said Dr. Naylor, "that when a man enters the Methodist ministry he surrenders his will. I have never seen a church or a man to whom I would surrender my will. Who is the church? Are not there 12,000 ministers in the church? Who are the 12,000 ministers' wives if they are not in the church? What are the 25,000 ministers' children if they are not a part of the church?"

John Wesley, the founder of the Methodist church in America, was a royalist who considered George Washington a rebel," said Dr. Naylor, "and his instincts were toward a monarchical form of government. Hence, when he appointed the first bishops for America it was not strange he gave them absolute powers. It might have been wise and necessary then, when there was only one conference. But now, with nearly a hundred conferences and 12,000 preachers, it was unwise and unjust."

ANOTHER ISLAND.

Uncle Sam Not Concerned in That Ocean Race.

WASHINGTON, June 6.—Whether Johnson's island, reported to be the goal of the international race between the British and Hawaiian steamers, reported in advices from Honolulu, belongs to the United States, Great Britain or Hawaii is likely to have little significance at present, for, according to information and belief of officers of the state department, the real object of the race is not Johnson's island at all, but Necker island.

The island lies about 400 miles west of Honolulu (in latitude 23.34 north and longitude 164.37 west), and is nothing but a barren rock about 500 feet long, rising 300 feet above the waves. Once it was covered with guano, but it has long since been stripped and left uninhabited. In fact, it is incapable of supporting human beings without outside aid. Hawaii has claimed the island, but this fact doubtless has prevented a colonization. It is part of the British colonial scheme, which will be fully ventilated at the important Ottawa conference about to assemble, to touch at this island with the cable from British Columbia to Australia. Then a branch loop would be run over to Honolulu to pick up the paying business that might be gathered there.

The British would prefer to run the main cable directly to the Hawaiian Islands, but they fear international complications and the loss of its control in an emergency should the cable touch anywhere than on British soil. In fact, it is very doubtful whether the cable could be landed at Hawaii without the assent of the United States under the present treaty stipulations, although in view of the importance of the cable for our own use, it may be that such assent would not be withheld. As for Necker island, if the Hawaiian title is good, which can not be determined at present, the United States government unquestionably would be bound to protect the island republic in its rights against the world.

Will Mancy Be Free?

ST. PAUL, June 6.—The rumor is flying around Fort Snelling that the findings of the courtmartial are in favor of Lieutenant Mancy on all counts. The findings were completed, signed by all the members of the court, and forwarded to Washington, but the officers are not allowed to make any announcement to the public in advance of the receipt of the papers by the secretary of war, and have not done so. Whether or not the rumor is correct is not known. It probably grew out of the haste with which the court reached its decision.

Was Not a Hazard.

LITTLE ROCK, June 6.—The report that June J. Johnson, captain of the Cripple Creek strikers, was expelled from West Point because of his connection with the hazing of General Logan's son, is denied by his relatives here, who are among the most prominent citizens of the state. They say he was not expelled and had no connection with the hazing of young Logan.

Death of a Retired Army Officer.

SALT LAKE CITY, June 6.—J. R. T. Walker, a well known retired army officer, died here at the residence of his daughter, Mrs. Salisbury, yesterday. The cause of death was a tumor of cancerous growth. Mr. Walker was a native of Pennsylvania, and was a brother-in-law of the late James G. Blaine.

IT WILL BE PASSED.

The Tariff Bill Now a Sure Thing in the Senate.

SUGAR SCHEDULE DISPOSED OF.

All the Compromise Amendments Adopted by the Senate—The Democratic Faction Solid, While the Republicans Were Divided—What the New Tariff Imposes.

WASHINGTON, June 6.—The compromise amendments to the sugar schedule were all adopted in the senate yesterday, and the pivotal schedule, on which the fate of the tariff measure depended, went through without change. On the vital amendment to place all sugars on the free list the Democratic line was drawn, Mr. Hill of New York voting in favor of it, and Mr. Irby of South Carolina paired the same way. But the Republicans were unable to hold their own forces intact, Messrs. Manderson and Perkins voting against the amendment and Mr. Quay being paired against it, while Mr. Sherman, who was present, did not vote at all. Only one of the Populists, Mr. Pepper, voted for free sugar, Messrs. Kyle and McMillan, in the final issue, joining with the majority of Democrats against it.

Had all the Republicans with the three Populists and the two dissatisfied Democrats joined hands, sugar, raw and refined, would have gone on the free list. On all the other amendments offered by the Republicans the majority against them ranged from 3 to 10. The adoption of the sugar schedule practically insures the passage of the bill at an early date, although it is intimated that the Republicans will make a final stand on the sugar schedule when the bill is reported and considered in the senate.

As adopted yesterday the schedule imposes a duty of 40 percent ad valorem on all sugars, raw and refined, with a differential of one-eighth of a cent per pound on sugars above 16 Dutch standard and an additional one-tenth of a cent against sugars imported from countries paying an export bounty. It continues the Hawaiian treaty admitting sugars from the Sandwich Islands free of duty and places a duty of 2 cents per gallon on molasses testing above 40 degrees by the polariscope. The schedule goes into effect Jan. 1, 1895, and a bounty is continued until that date.

In the House.

WASHINGTON, June 6.—When the house met two unsuccessful attempts were made to secure consideration of private bills. Mr. Catchings, from the committee on rules then brought in a resolution providing for a vote at 5 o'clock on the Brawley bill, the rest of the day to be devoted to debate under the five minute rule.

The house adopted a resolution to vote on the Brawley bill Wednesday after the call of the committees.

Mr. Cox then offered his amendment providing for the total unconditional repeal of the tax on state banks. The bill was debated by Messrs. Boater of Louisiana, Pendleton of Texas, Enloe of Tennessee, Livingston of Georgia, Talbert of South Carolina, Cooper of Florida, and other Democrats in favor of the bill, and by Messrs. Bowers of California, Cannon of Illinois, Grow, Woomer and Adams of Pennsylvania, Lacy of Iowa, Quigg and Ray of New York, Republicans, and others in opposition to it.

Mr. Bryan (Dem., Neb.) said he would propose a bill which would provide a larger circulation of paper money under the exclusive control of the federal government.

At 5:35, without further action on the bill, the house adjourned.

ARKANSAS RIVER AGAIN BOOMING.

Great Destruction Being Done Along It and Its Tributaries.

PUEBLO, Colo., June 6.—Reports came in from Florence that the Arkansas river was again on the boom, and that two of its tributaries, Beaver creek and Four Mile creek, were over their banks. The alarm was given and residents of the bottoms moved to higher land, and business firms put their employees to work raising their goods above the high water line of last Wednesday night's flood.

It is reported that the river is eight inches higher at Swallows, 19 miles west of the city, than it was last week. The Rio Grande is washed out west and north at the same places that were damaged last week. The Santa Fe is also blocked between here and Colorado Springs by high water in the mountains.

Election Results in Oregon.

PORTLAND, Or., June 6.—Partial returns from 10 counties give Lord, Republican, for governor, a plurality of 1,200. The remainder of the state ticket is following close, with the exception of Irwin for superintendent of schools. At this rate Lord's plurality will reach 15,000. Returns from this city and county are very incomplete. The Republicans elect their city and county ticket with the possible exception of sheriff.

Claims Self-Defense.

VELASCO, Tex., June 6.—Austin Edwards, John Kelly and Solomon Nelson, colored, were killed yesterday at Perry's Landing. Edward Daniels, charged with the shooting, surrendered, and claims to have acted in self-defense. He also says the negroes tried to whip his little brother, and when he remonstrated they cursed and abused him as they had previously done his father.

Generally fair weather.

It's an ill wind that blows no one any good. The miners' strike has proved a regular bonanza for the coal dealers of Cincinnati. They have lately sold over 3,000,000 bushels of black diamonds to parties in the North and Northwest, and while shipping millions of bushels away from home they set up the cry that there was a great scarcity of the article and advanced the price to their local customers. This coal trust is like those other trusts that sell their goods in foreign countries cheaper than to their home people.

 The election came off last Saturday for trustee of our school. A. Duke and Miss Elizabeth Jefferson were candidates. The latter was elected; one of the old ones, retiring, leaving three trustees.
 Quite a crowd from this place and vicinity attended Decoration Day services at Shaanon. The writer was there and we noticed everybody seemed to enjoy themselves. Plenty to eat, good speaking and a pleasant day—only a little cool.

THE SEPARATE COACH LAW.

Judge Barr, of the United States Court, Decides That it is Unconstitutional.

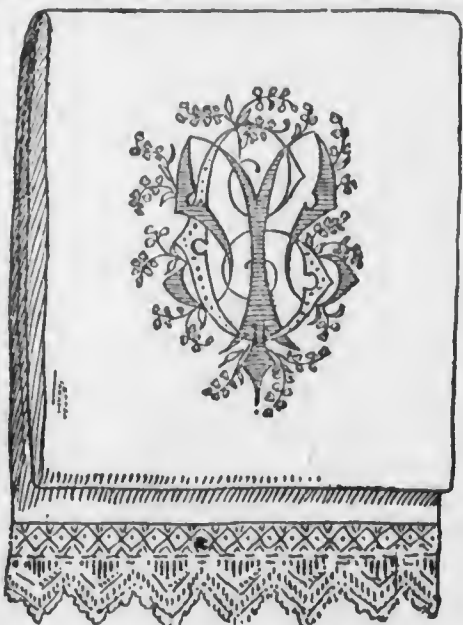

Judge Barr delivered an opinion in the case of W. H. Anderson, a colored minister, vs. the L. and N. Railroad in the United States Court at Owensboro Monday that had been watched for with interest, especially by the legal fraternity.

Anderson sued to recover \$15,000 damages and to test the constitutionality of the Separate Coach law. Judge Barr holds that the question raised is purely a constitutional one, and that the law is an interference with interstate commerce and void as to all passengers. The opinion is a lengthy one and discusses fully this much mooted question.

A PAIR OF IDEALIZED SCISSORS.

Judith Chollet Describes Them and Other Articles For Use and Ornament.

Women who seldom touch a needle are usually the ones who indulge in elaborate workbaskets and are most fastidious about the fitting up thereof. The skilled dress-maker uses a pair of shears as long as her arm, a yellow linen tape measure and a steel thimble and keeps her needles in their native paper, but the amateur has a receptacle lined with silk puffings and furnished with all the modern improvements in the way of gold thimbles, silver emery balls and pearl handled bodkins. One of the prettiest additions to this nest of wonders is a pair of silver mounted scissors, the bows of which, instead of being plain utilitarian ovals, are embossed, chased, fluted

and intertwined with delicate scrolls. These idealized scissors may be obtained in gold as well as silver by the extravagantly inclined.

The newest thing in fancy lamp shades is a globe covered thickly with chrysanthemum petals in pink or yellow. The petals are of cambric, cut and stamped into the proper form, and they are fastened on a fine wire foundation.

THE CITY ASSESSMENT.

It Amounts to \$2,747,740 This Year, an Increase of \$102,975 Over 1893's Figures.

City Assessor C. D. Shepard completed the annual listing of property for taxation a few weeks ago, and the Board of Equalization has finished its work of supervising the lists.

The total shows a very creditable increase over 1893, considering the cry of "hard times." Following are the figures: Total amount of real estate and personal property as returned by the Assessor in First, Second, Third, Fourth and Fifth wards.....\$2,645,595 Sixth ward..... 177,570 Total.....\$2,733,565 Added by Board of Supervisors..... 14,175 Grand total assessment.....\$2,747,740 Increase over assessment of 1893..... 102,975

MASON CIRCUIT COURT.

List of the Petit Jurors—A Horse Thief Gets Two Years in the "Pen."

The grand jury dismissed the charges against Wm. Brown.

The cases against the Lexington, the Germantown, the Mt. Sterling and the Orangeburg turnpike companies, charged with violating the new toll law, were continued.

The following were empaneled as the petit jury: Robert H. Williams, H. D. Knight, Robert Lane, Ernie White, B. W. Wood, W. P. Walton, A. C. Bainum, Jesse Calvert, Enos Myall, John Duryea, Charles Roe, Timothy, McAuliffe, Hiram Earnshaw, Dennis Fitzgerald, Ira Golden, Wm. Daugherty, N. H. Lane, Jas. Pogue, J. B. Key, H. M. King, Alex. Piper, Edward Hunter, John Strode and John Bramel.

The indictment against Jeff Clayton, and others, James Smith, Clay Means and others and Reed Stroud were filed away, with leave to redocket.

The indictment against the Mayslick and Elizaville Turnpike Company was dismissed on demurrer.

The grand jury reported indictments against Henry Allen for cutting with intent to kill and Edward Jones for horse stealing. Jones was tried and convicted, the jury fixing his penalty at two years in the "pen." He stole a horse in Clark County not long ago and coming to this city sold it to Mr. R. A. Carr.

Steve Archie was tried for taking and carrying away the property of another, and was found not guilty.

An Old Paper.

A correspondent of the BULLETIN was shown the other day a newspaper published at Syracuse, New York, in January, 1800, that was in as good a state of preservation as it was the day it was printed. It contained an account of the death and burial of General Washington, and like all papers of that day it hadn't much in it besides the doings of Congress and advertisements. One man advertised for sale a saw mill and "a likely negro wench." So it seems that the Northern people got some returns for their slaves.

The paper was brought from Virginia at an early day by a gentleman formerly well-known in this county and who has many descendants now living here. He was the one who told the story about the colored preacher in Virginia cautioning his congregation "not to set their minds on hoes and axes, but rather on geese and turkeys." The old gentleman lived near to the great Washington whom he had often seen.

A Novel Religious Service.

Bourbon News: "Probably the most unique religious service ever held in this city occurred at the Kentucky Central depot Friday night. The evening train, which was delayed on account of a small wreck on the road, was crowded with ministers and their wives en route to Carlisle to attend the meeting of the Baptist Association, and while the train waited a service was held in one of the passenger coaches. One of the ministers delivered an interesting talk and another gave an entertaining lecture on the subject of "Mexico," and the ladies assisted in a beautiful song service. The service was a novel one and was highly enjoyed by the passengers. One man in the car had not heard a sermon for years."

Court Versus Council.

Judge Jewell, of the Recorder's Court at Lexington, is after the members of the City Council for remitting fines. He issued a rule against them to show cause why they should not be punished for contempt of court.

The City Attorney has given it as his opinion that the Council has no right to remit any fine, and says that the Judge of the Recorder's Court has the right to punish for contempt by a fine of \$30 and imprisonment in the county jail for thirty hours, or both.

The Aldermen claim they have the power to remit fines and repeal all ordinances, and threaten to impeach Judge Jewell and do away with his office.

The Maysville Minstrels.

The Maysville Minstrels will give a performance on Tuesday evening, June 12th, for the benefit of the Maysville ball club. From the hit they made with their performance here in March last it is safe to say that the ball club could not have selected anything that would draw half the money into Washington Opera House that the Minstrels will. The ball club is the best in this section of the country, and as the people of Maysville wish to see them succeed, the Minstrels will no doubt be greeted by a packed house.

THE members of Confidence Lodge and Mason Lodge, F. and A. M., have decided to celebrate St. John's Day, with a match game of base ball at the fair grounds. It will no doubt be the biggest drawing card of the season. The proceeds will go to the Masonic Widows' and Orphans' Home at Louisville.

FIVE hobos who passed here last week were at Parkersburg Tuesday. A telegram says they are in hard luck and getting ugly. The city authorities forbid them to enter the city and refuse further provisions. Blondell applied to the county authorities and was refused aid and ordered to take his gang out of the county. The men are now dependent upon what they can beg from individuals, and are reported to be terrorizing the Parkersburg suburbs, frightening women from whom they demand all the provisions on hand.

COUNTY COURT. Margaret A. Hickey qualified as administratrix with the will annexed of John F. Hickey, with Wm. Hickey as surety.

WITH MUSIC AND CALISTHENICS

The Pupils of Hayswood Entertained a Large Audience at the Opera House.

Hayswood pupils entertained a large audience at the opera house last evening with music and calisthenics. Almost the entire seating capacity of the lower floor was occupied, notwithstanding the inclement weather. The stage was very handsomely decorated with potted plants and cut flowers. The musical selections were rendered with an ease and grace highly creditable to the pupils and very gratifying to their relatives and friends and the Principal and faculty of the school. The class in physical culture also acquitted themselves very gracefully. The wand drill, calisthenic drill and Indian club drill were especially good. Following was the programme:

Mazurka.....Weber
Misses Reid, Horrocks, Rains, Owens and Peor.
Anvil Chorus Drill.
Cacade du Chaudron.....Bendel
Miss Marlan Wornald.

PRESIDENT M. E. INGALLS, of the C. and O., is quoted as saying that when he returns from Europe he expects to find labor troubles settled. He thinks people are talking too blue, for business is improving. He attributes the present conditions to the "insane competition" the roads have indulged in.

THERE is no truth in the report that Rev. F. S. Pollitt, formerly of Washington, but now of Richmond, would soon wed a young lady of that city. A cousin of Mr. Pollitt, Rev. Hall Pollitt, will be married next week, and the party who started the report alluded to no doubt got the names of the two ministers confounded.

GILBERT WARNER and John Lewis, colored, were in the Police Court this morning charged with petit larceny, and were committed to jail in default of bail to await the action of the grand jury.
